START HERE

# Talk to us before you order.

You do not need to know the material, the method or the machine. Describe the job and we will tell you what it should be made of, what it will cost and whether your date is possible. If a cheaper way gets you the same result, we will say so.

FOUR THINGS AND WE CAN QUOTE

- |                               |                          |
|-------------------------------|--------------------------|
| 1 What the job is for         | 2 How many you need      |
| 3 The date it has to be ready | 4 What you have to spend |

That is enough for a price and an honest answer on the date. Quotations and advice are free, and nothing goes on a machine until you have approved the artwork.

---

WHAT IS IN HERE

31 products over the pages that follow, a category to a page, each one with a picture, the sizes we run it in, what it is made of and how long it takes.

**WHAT WE MAKE**

## 31 products, 12 categories.

Everything below is made in our own workshop. Sizes, materials and finishes can all be changed — these are the specifications we run most often, not the only ones we can run. Current prices for every item are on the website.
